

KLEPCYS COLLECTION

The incredible Babylon, the intellectual and scientific capital, ruled the world. The city of innumerable material and spiritual treasures also boasted magnificent architecture. But despite its reputable invincibility, the city was conquered. It was subdued by Cyrus the Great who succumbed to the enchanting city, the memory of which still excites our imagination. The Klepcys collection opens the door for you... An imposing case with a diameter of 48mm (including the crowns) boasts four walls in the shape of horns with high quality finish, and encompasses the main watch mechanism. The slanting lugs for a black crocodile leather strap fit the wrist perfectly. The visible screws remind one of the three-part Cyrus brand logo. The retrograde hand moves along the 180° axis and changes colour (while rotating across the 180 degrees) depending on the time of day (day or night). Regardless of the hand's position, minutes and seconds discs are always aligned and accurate during the linear reading of time. This patented alignment is based on a one-of-a-kind mechanism which controls the speed of the (retrograde and rotating) hours, minutes, and seconds wheels. As far as the date display is concerned the units digits (from 0 to 9) rest one on top of the other, while the tens digits change before the units digits. Once the tens digit reaches the figure 9, the figure moves in retrograde manner and rotates by 90 degrees. It simultaneously makes the way for the space for the next tens digit which is placed before the units digit 0. Finally, the tribute to the famous Tower of Babel, "which towered to the heavens", takes the form of a full moon with realistic crater images which links the watch to the sky. The lunar phases are represented by a black patch which gradually covers the full moon. When the moon is fully covered, the three-section Cyrus brand logo becomes visible. Time eventually conquers the waning moon. Three exceptional functions were developed in cooperation with Jean-François Mojon, the renowned developer who received the Best Watchmaker award at the Grand Prix d'Horlogerie in Geneva.

Collection	Klepcys
Reference	539.002.A
Limited series	88 watches
Description	Selfwinding movement with unusual indication of time on a mobile shaft. Functions: retrograde hours, day/night indicator, retrograde large dates with the tens on a three-dimensional rotating part, spherical moon with a mobile cover to indicate the moonphases.
Materials	18K white gold Black DLC-coated titanium
Movement	
Movement	Selfwinding CYR598, 4 Hz, 28,800 v/h
Winding rotor	Personalised decoration Oil-free ceramic ball bearings
Power reserve	> 40 h
Jewels	37
Functions	
Time indications	Three-dimensional retrograde indications Hours, minutes and seconds displayed on a mobile axis with day/night indication. Height of the retrograde hours hand precisely governed with ruby bearings. Patent pending
Dates	Large dates, tens on three-dimensional pivoting components Height of the retrograde hours hand precisely governed with ruby bearings. Patent pending
Moonphases	Spherical moon in 5N gold. Mobile cover represents the moonphases CYRUS logo appears when the moon is completely hidden
Case	
Case	Bezel in brushed black DLC-coated titanium Case in polished black DLC-coated titanium Lugs in brushed 18K white gold Lug flanks in polished 18K white gold

Diameter	48mm including crowns
Crowns	18K white gold Crown at 3 o'clock to set the date - with Cyrus logo on the outside Crown at 9 o'clock to set the time "keep the secret" - with Cyrus logo on the outside – a lateral movement reveals the limited series number.
Sapphire crystal	Anti-reflection treatment
Caseback	Stater medallion, diameter 18mm in 5N gold Reproduction of the 2,500-year-old original. The original stater coin is owned by CYRUS
Finishes	CYRUS screw fittings

Dial

Dial	Black dial "Trilogy" design by the CYRUS design studio
------	---

Strap

Strap	Crocodile, hand stitched, black, matching tone thread
Replacement strap	Crocodile, hand stitched, black, matching tone thread
Clasp	Folding clasp in brushed titanium Design inspired by the shape of the case CYRUS logo on the cover

Number of components

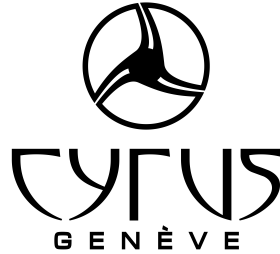

456

Box

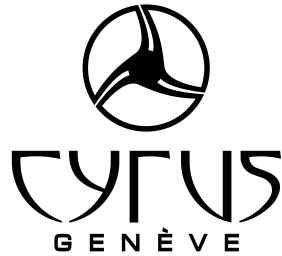

Developed by the CYRUS design studio

Contents: moonphase corrector, replacement black crocodile strap and warranty card

Swiss Made

Collection	Klepcys
Référence	539.002.A
Serie limitée	88 pièces
Description	Mouvement automatique avec affichage inédit de l'heure sur un axe mobile, fonction : Heures rétrograde, indication jour / nuit, quantième grande date rétrograde avec dizaines tridimensionnelles rotatives, lune sphérique avec indication des phases de lune par montée d'un cache progressif
Matériaux	Or gris 18K Titane traité DLC (noir)
Mouvement	
Mouvement	Automatique CYR598, 4 Hz, 28'800 a/h
Masse oscillante	Décor de masse personnalisé Roulement à billes avec billes céramique sans lubrification
Réserve de marche	> 40 h
Nombre de rubis	37
Fonctions	
Fonction horaire	Mécanisme d'affichage rétrograde tridimensionnel Lecture Heures, Minutes et Secondes sur un axe mobile, avec indication jour/nuit Guidage précis de la Hauteur de l'aiguille des Heures rétrogrades, avec palier en rubis Demande de brevet déposée
Quantième	Grande date, dizaines tridimensionnelles rétrograde, pivotantes Guidage précis de la hauteur de l'aiguille des dizaines avec palier en rubis Demande de brevet déposée
Phases de lune	Lune tridimensionnelle en or 5N Montée d'un cache progressif pour annoncer les différentes phases de lune Lorsque lune complètement cachée: apparition du logo CYRUS
Boitier	
Boitier	Lunette en titane traité DLC (noir) satiné Boîte en titane traité DLC (noir) poli Cornes en or gris 18K satiné Flanc de cornes en or gris 18K poli

Diamètre	48mm (couronnes incluses)
Couronnes	Or gris 18K Couronne 3h réglage de la date - avec logo extérieur Cyrus Couronne 9h réglage de l'heure " keep the secret " - avec logo extérieur Cyrus - révélant le numéro de la pièce série limitée, par mouvement latéral
Saphir	Traitement anti-reflet
Fond de boîte	Statère (médaille) de 18 mm de diamètre en or 5N Copie à l'identique de l'original, vieux de plus de 2'500 ans Le Statère original est la propriété de CYRUS
Finitions	Visserie spécifique CYRUS

Cadran

Cadran	Cadran noir Design " trilogie " développé par les ateliers de création CYRUS
